Good afternoon Deb!

I am sure you are getting flooded so I will keep this short.

I would like to PLEAD for the opening of the Northfield Municipal Pool this summer.

Our kids have suffered enough this year. They have been robbed of field trips, fundraisers, end of the year parties and goodbyes, seeing friends, birthday parties, activities and basically all summer sports, they really NEED this. Our community, in particular the youth, NEED this. I hope you will please consider, as I know Northfield is a place that cares about their residents.

Thank you,
Sara French

Dear Northfield City Council Members,

I hope you are all staying safe and healthy through these difficult times!

My name is Solvei Christopherson and last year I worked on the Old Memorial Pool staff as a Seasonal Pool Attendent. I loved this job and decided to apply again this season because I loved it so much. I understand that there is a large decision you have to make this evening regarding whether or not you should open the pool this summer.

As a past employee, and hopefully a future one, I would love for the pool to open this summer. However, I do understand the concern about the Covid-19 pandemic. Being an extra cautious person due to my high risk family members during this pandemic, I can see the risk on opening up the pool. I also understand that if the pool opened for the season, it would have a lot more regulations and possible jobs employees would have to enforce at the pool. I am more than willing to take on the responsibility, and I feel that my fellow employees would feel the same.

I hope that you consider this perspective as you make your decision this evening.

Thank you,
Solvei Christopherson
